MOHAMED ALI HASSAN

Commercial Data Analyst • Telecom & E-Commerce Analytics Consultant

Cairo, Egypt • **+20 1070825000** • Mohammedali88899@gmail.com • Portfolio Website • LinkedIn • GitHub • Upwork

EXECUTIVE PROFILE

Commercial Data Analyst with **10+ years of operational leadership** across telecommunications, retail sales operations, and customer retention. Proficient in **Python (Pandas, NumPy, Matplotlib, Seaborn)**, **Advanced Google Sheets/Excel**, and **SQL**, specializing in exploratory data analysis (EDA), data cleaning pipelines, and financial retention modeling. Proven track record of translating messy operational data into executive strategies that curb customer attrition and protect recurring revenue. Experienced in leading retail teams, establishing KPI monitoring frameworks, and analyzing multi-channel unit economics (CAC, ROAS, LTV).

CORE TECHNICAL SKILLS

- **Programming & Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn), Exploratory Data Analysis (EDA), Jupyter, Git/GitHub
- **Databases & Querying:** SQL (Relational Modeling, Window Functions, Common Table Expressions [CTEs], Joins, Aggregations)
- **Spreadsheets & BI:** Advanced Google Sheets & Excel (XLOOKUP, INDEX/MATCH, Dynamic Arrays, Financial Dashboards), Power BI (DAX)
- **Commercial Methodologies:** Customer Churn Analytics, Dunning & Retention Workflows, Unit Economics (CAC, ROAS, AOV), KPI Architecture
- **Languages:** Arabic (Native), English (Professional Working Proficiency)

FEATURED COMMERCIAL DATA CASE STUDIES

D2C E-Commerce Sales Performance & Marketing ROAS Hub | *Google Sheets, Advanced Excel, Financial Modeling*

GitHub Repository: d2c-ecommerce-sales-dashboard • *Interactive Portfolio Case Study*

- **Audit & Hygiene:** Audited 3,500 multi-channel transaction records ($296.9K Net Sales), engineering an automated Data Quality Audit Box that isolated and reconciled 30 duplicate entries and 124 missing attribution fields.
- **Executive KPI Suite:** Developed a dynamic 4-tab commercial reporting system featuring dynamic sparklines, a 5-channel dropdown filter (Meta, Google, TikTok, Organic, Direct), and real-time revenue contribution charts.
- **Unit Economics Auditing:** Evaluated CAC vs. ROAS identities across acquisition channels; uncovered repeat-customer margin compression (36.27% vs. 36.95% first-time orders) masked by aggregate blended performance.
- **Financial Impact:** Formulated an executive zero-CAC retention roadmap projected to recapture **$25,000+ in annual profit** through optimized re-engagement workflows and localized discounting controls.

Telecom Customer Churn & Revenue Risk Analysis | *Python, Pandas, Seaborn, Behavioral EDA*

GitHub Repository: telecom-customer-churn-analysis • *Interactive Portfolio Case Study*

- **Data Pipeline Architecture:** Engineered an end-to-end Python pipeline to profile, clean, and standardize 50,200 subscriber records across 18 operational and customer behavioral features.
- **Financial Bleed Quantification:** Modeled an annual churn revenue loss of **$3,653,533.68** (~$304.5K/month); statistically disproved pricing as the primary attrition driver, identifying involuntary payment failures (**+95.0%**) and support escalations (**+74.0%**) as the true catalysts.
- **Behavioral Leading Indicator:** Isolated the critical 'Silent Churn' pattern, proving that churning subscribers experience **25.9 days of inactivity** (+100% surge compared to retained subscribers at 12.8 days).
- **Retention Roadmap:** Structured a 3-pillar intervention strategy (smart dunning, 14-day inactivity trigger, priority VIP ticket routing) modeled to protect **$548,030.05 in annual recurring revenue (ARR)** at a conservative 15% churn reduction.

PROFESSIONAL EXPERIENCE

Retail Team Leader | Vodafone Egypt

February 2022 – Present | Cairo, Egypt

- **Commercial Performance:** Leveraged customer purchasing pattern data and segment behavior to guide a retail operations team, consistently exceeding monthly sales quotas by **5% to 26%**.
- **Retention & Attrition Management:** Managed high-value subscriber accounts, applying usage data tracking to detect early attrition signals and delivering a **30% increase in customer retention**.
- **KPI Architecture:** Standardized daily and monthly KPI reporting across product lines (voice, data, fixed broadband) for 10+ retail team members, identifying cross-selling opportunities.
- **CRM Data Hygiene:** Implemented standardized CRM data entry protocols, cutting administrative recording errors and customer profile discrepancies by **15%**.

Outdoor Sales Representative | Arabian Company for Milling and Food Industries

2018 – September 2021 | Cairo, Egypt

- **Sales Analytics & Upselling:** Analyzed B2B client order frequencies and purchasing volumes, applying data-backed upselling strategies to raise average order value (AOV) by **18%**.
- **Account Portfolio Management:** Maintained systematic CRM tracking for 50+ key distributor accounts and conducted competitor price benchmarking to expand regional territory share.

Commercial Operations & Guest Relations Roles | Premier Hospitality Brands

2009 – 2017 | Cairo, Egypt (Fairmont Towers, Intercontinental, Hyatt Regency)

- Built foundational excellence in customer relationship management (CRM), high-stakes service resolution, and operational consistency across international 5-star properties.
- Managed guest profile data, order tracking, and cross-functional team coordination under high-volume commercial environments.

EDUCATION

Bachelor's Degree in Hotels Management

Helwan University**, Faculty of Tourism and Hotel Management | Graduated 2015 | Grade: **Very Good

Relevant Coursework: Accounting & Financial Records, Business Statistics, Marketing Principles, Operations Management, Quantitative Analysis.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- **ALX Data Science Program (Machine Learning Track):** Rigorous curriculum covering Python data structures, statistical analysis, and machine learning pipelines (In Progress, 2026).
- **Python for Data Analysis & Data Cleaning:** Hands-on data cleaning, imputation, outlier detection, and statistical hypothesis testing with Pandas and NumPy.
- **Google Sheets & Excel Advanced Commercial Modeling:** Pivot tables, nested logical functions, dynamic array lookups, and executive dashboard architecture.
- **Customer Relationship Management (CRM) & Sales Leadership:** 10+ years of active field practice in customer lifecycle management, retention dunning, and retail team leadership.
